

IMPORTANT PROGRAM INFORMATION For Trade Allies

MidAmerican Energy's SummerSaver Program Request for Qualified Service Providers

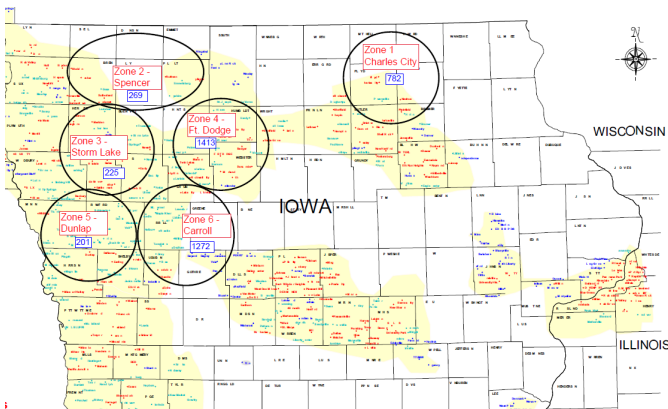

QUALITY SERVICE PROVIDER

We are looking to contract with HVAC contractors or Electricians to install, remove and maintain Load Control Receivers (LCRs) for MidAmerican Energy's SummerSaver program. LCRs are installed to control customers' central air conditioner or air-source heat pump by cycling the compressor on-and-off when demand for electricity is at its highest. QSP work includes:

- New Installations - typically occur in the spring and completed by May 31st.
- Removals - can occur anytime throughout the year.
- Maintenance/Troubleshooting - typically occurs between April and November.
- Annual Aged-Out Replacements - typically occurs in the spring or fall (will coordinate with you on availability and work load).

Qualified Service Providers will work with the program team at CLEAResult for all aspects of this program including invoicing, inventory and work order status.

Service areas zones in need of a QSP are:
