SAVE ENERGY AND MONEY

AT YOUR REFRIGERATED WAREHOUSE

SHIP OUT HIGH ENERGY COSTS

Did you know the average refrigerated warehouse in the Midwest spends over \$13,000 per year on electricity and natural gas? The following pie charts illustrate what refrigerated warehouse activities use the most energy and cost the most. Refrigeration accounts for the largest portion of energy use in warehouses.

ELECTRICITY END USES

NATURAL GAS END USES

	Average Electric Cost/Month	Average Gas Cost/Month	Energy Savings Potential
Refrigeration	\$ 750	-	High
Space Heating, Cooling and Ventilation	\$ 28	\$ 166	Moderate
Miscellaneous	\$ 95	-	Moderate
Lighting	\$ 57	-	-

WAYS TO SAVE

You can find a complete list of simple, low cost and capital investment improvements that can reduce your energy use at [MidAmericanEnergy.com/warehouse](https://www.midamericaneenergy.com/warehouse).

REFRIGERATION

Refrigeration is a large cost for warehouses with the typical refrigerated warehouse spending \$750 per month!

SPACE HEATING, COOLING AND VENTILATION

Heating accounts for nearly all natural gas usage for a typical refrigerated warehouse at \$166 per month. There are several simple changes to help save energy.

MISCELLANEOUS

Electric devices like forklift charging can use significant energy.

LIGHTING

Lighting costs can be significant depending on the size and layout of your warehouse. The tips online will help you save as much as 70% of the cost associated with lighting.

CURIOUS HOW YOUR WAREHOUSE COMPARES?

Energy Use Intensity (EUI) is a common measure used to benchmark a building's energy use as a factor of its size. To calculate EUI for your warehouse, total your electric bills for one year, then divide by your building's square footage; repeat for natural gas. If the score is lower than those listed below, you are using less energy than most.

Average EUI for refrigerated warehouses in the Midwest

Electric: 28.9 kWh/square foot
Natural Gas: 0.13 therms/square foot

SMALL BUSINESS EXPRESS IS HERE TO LEND A HAND.

We offer rebates for some of the improvements mentioned above. MidAmerican's Small Business Express makes it easy for you to get professional guidance to identify energy-saving opportunities. Eligible rebates can help lower your out-of-pocket cost to replace failing equipment, and help save energy and money long term.

Visit [MidAmericanEnergy.com/SBX](https://www.midamericaneenergy.com/SBX) to learn more and get started today!

Restrictions apply. MidAmerican Energy reserves the right to cancel or modify the rebate program at any time at its sole discretion. Rebate offers may not be combined with any other MidAmerican Energy rebate for the same product or service. Visit [MidAmericanEnergy.com/SBX](https://www.midamericaneenergy.com/SBX) for full program details and rebate requirements.

Estimated energy costs are based on US Energy Information Administration's Commercial Buildings Energy Consumption Survey (CBECS) for the Midwest, eia.gov/consumption/commercial/. Due to rounding, percentages in pie charts may not total 100%. For more information about ENERGY STAR® qualified appliances, visit energystar.gov. ENERGY STAR is a registered mark of the US EPA.
