

2022 Energy Efficiency Program Spending Notification #4

MidAmerican Energy is committed to delivering energy efficiency programs to its customers at a reasonable cost and within the budget limits of the law (see Iowa Code 4.76.6(15)(c)(2)). In order to meet this commitment, periodic adjustments to program offerings and incentives may be necessary to avoid exceeding energy efficiency program budgets approved by the Iowa Utilities Board.

MidAmerican provides notification when the current year's actual spending by program exceeds 50%, 65%, 75% and 80% of its approved budget. As remaining available funds become further reduced or fully exhausted, additional notifications will be sent.

No program or incentive adjustments are needed at this time; however, notification is being provided for the following programs:

State	Fuel Source – Program Name	Percent of Budget Utilized
Iowa	Natural Gas – Residential Equipment	80%
Iowa	Electric – Residential Equipment	50%

Applications received will continue to be processed on a first-come, first-served basis while 2022 funding is still available.

If you have questions about this notification or energy efficiency programs, please call [877-290-4517](tel:877-290-4517), email tradeallycentral@midamerican.com or visit our [website](#) for additional information.
