Enter rebate applications online

Enter rebate applications online! MidAmerican offers trade allies exclusive access to enter customer applications online. The online tool is available for residential and nonresidential prescriptive HVAC and lighting equipment that have been purchased and installed in Iowa and Illinois.

- Easily track all incomplete applications
- View total applications submitted and rebates paid
- No need to exchange paper documents to obtain customers' signatures

To request access to this online tool or to add additional email accounts, [complete this form](#) or call 877-290-4517.

SummerSaver begins June 1

Attention residential HVAC trade allies!
MidAmerican's SummerSaver

program begins June 1. With more than 62,000 SummerSaver participants, it is likely you will receive service calls from customers who have a load control receiver (LCR) connected to their home cooling equipment.

If you encounter a problem or issue with an LCR, call MidAmerican at 800-437-2976 or review the LCR technical information.

New offering - Data Center Advantage

Businesses, big and small, depend on reliable data services, but data set-ups are highly energy intensive. Data centers can use 20 to 50 times the energy per square foot than traditional office space.

The MidAmerican Data Center Advantage offering helps data center owners and operators gain access to energy-saving opportunities by helping identify and evaluate projects and providing financial incentives that flow straight to the bottom line. If you have a data center customer interested in participating, call 877-939-1874 or email datacenteradvantage@willdan.com.
