

2023 ILLINOIS

ENERGY EFFICIENCY INFORMATION FOR YOUR BUSINESS

Equipment must be purchased between January 1, 2023, and December 31, 2023, and installed and operating prior to submitting the final rebate application. Rebates and incentives are issued on a first-come, first-served basis. Please review the full list of qualifications and conditions located [online](#).

New in 2023, MidAmerican is offering Instant Discounts for natural gas furnaces, central air conditioners and LED linear replacement lamps. Traditional prescriptive rebates are available for other HVAC and lighting equipment. See the Rebates section for more details.

Equipment not listed for prescriptive rebates or Instant Discounts may qualify for a rebate under Nonresidential Energy Solutions. These custom projects must be preapproved by MidAmerican prior to purchase and installation of equipment or systems. Projects must be completed within 12 months of preapproval. All commercial new construction projects must participate in the Commercial New Construction program in order to receive rebates.

INSTANT DISCOUNTS

The Instant Discounts program offers incentives for the purchase and installation of qualifying energy-efficient equipment. By working with an Instant Discounts provider, the discount is automatically deducted from the purchase price, so there's no paperwork for customers to complete. Find an Instant Discounts provider via MidAmerican's Find a Contractor search tool at [MidAmericanEnergy.com/ee](#). Trade Allies working with a participating distributor that would like to be listed as an Instant Discounts Provider on the search tool can contact a Trade Ally Ambassador.

Equipment	Qualification(s)	Instant Discount Range
LED linear replacement lamps	4' T12, T8 and T5 fluorescent replacement lamps	
	Lumens ≤ 1,200	\$1.50/lamp
	Lumens > 1,200 - ≤ 2,400	\$2.50/lamp
	Lumens 2,400 - ≤ 4,000	\$5/lamp
Natural gas furnace – AHRI certified	<225 MBtuh and AFUE 90% or greater	\$37.50 - \$150
Small central air conditioners – AHRI Certified	<65 MBtuh and SEER ≥ 16 and EER ≥ 11.2 <65 MBtuh and SEER2 ≥ 15.2 and EER2 ≥ 10.6	\$75 - \$300 \$75 - \$300

REBATES

For prescriptive rebates, the rebate payment cannot exceed 50% of the installed cost (reasonable labor and material/equipment – reasonableness to be determined by MidAmerican). Installed cost includes contractor labor only and does not include internal labor. Applications must be submitted within six months of invoice or by December 31, 2023, whichever comes first. Applications can be submitted online at [MidAmericanEnergy.com/ee](#).

NONRESIDENTIAL ENERGY SOLUTIONS

The Nonresidential Energy Solutions program promotes comprehensive energy efficiency for existing commercial buildings and industrial facilities through two offerings: Small Business Express and Direct Project Assistance. These offerings are tailored to the unique needs of nonresidential customers by size and purpose. This program also will serve agriculture and market-rate multifamily customers.

Custom incentives are based on first-year savings and calculated according to improvements made. Project incentives are the lesser of the calculated custom rebate or 70% of the eligible project cost, and the incentive may not reduce the simple payback period for the project to less than two years.

COMMERCIAL NEW CONSTRUCTION

The Commercial New Construction program provides complimentary energy design assistance and financial incentives to help offset the cost of implementing energy-efficient strategies. Qualifying projects must be:

- New construction, an addition or a major renovation with mechanical system replacement
- Early enough in the design process to implement energy analysis results
- Larger than 5,000 square feet
- Heated and/or cooled by a participating Illinois utility
- Able to achieve electric savings that are at least 5% better than energy code baseline

Project incentives (electric incentives only) are capped at 50% of total bundle incremental cost, cannot buy down a project below a one-year simple payback or exceed \$200,000 per building.

- Incentives include:
- Free design assistance
 - Design team and construction incentives

To enroll your project call 877-939-1874 or email CNC@willdan.com.
