

IMPORTANT INFORMATION FOR TRADE ALLIES

SummerSaver Program Reminder

As warm summer weather approaches, we remind you that a SummerSaver event is possible. Events may occur from June through September, on weekdays between 2 p.m. and 7 p.m. When a SummerSaver event is called, an email alert will be sent to you and a notice will be posted on our website for SummerSaver participants. You receive the SummerSaver event notification in the event that you may get calls from customers questioning if their air conditioning system is working properly.

As a reminder, during a SummerSaver event, our Load Control Device (LCR) allows us to cycle the compressor off and on in predetermined intervals; the indoor blower fan will continue to circulate previously cooled air.

For questions or issues with the SummerSaver load control receiver box, call [800-437-2976](tel:800-437-2976). You also may refer to the [SummerSaver Program Information for HVAC Dealers and Service Technicians](#) sheet for more information.

If you have questions about the notification or energy efficiency programs, please call 877-290-4517 or visit our website, MidAmericanEnergy.com/ee for additional information.
